Women from the mechanic family and being the wife of a mechanic know how skeptical we are about repairing car dealerships and pricing things or abusing a woman. When I came to Gordon Chevrolet to work for my Chevy Cruze, I had that mindset. When I got to the counter, I spoke to a service representative about his name was Bradley Pouliot, Brad #1 briefly (lol). He introduced himself and asked me how he could help me. I told her my story about my car and what it did, and I also told her that nothing is done without asking me in turn that I would talk to the husband. He said it was absolutely fine and that's what he was going to recommend anyway. At that point, I was a little shocked, not what I expected from the dealership. They checked my car and he came back to give me the results. He told me it was my decision, and if I felt I had to get a second opinion that I was welcome to do so, the most important thing was that I had to have a safe and reliable vehicle and that only I could make the right choice. He has other options if I took those options with me. I called my husband and told him everything he confirmed was true, so he was surprised that the price was as low as it was. You've seen my husband check the car before I left, which he didn't tell me and if he had some free time he could have done it himself. I decided to bring my car. Gordon Chevrolet. Because he was a down-to-earth person who showed that he cared about the client. Customer. than anything and understood if you didn't have much money at the time, explained which was the main fix first. He's in your shoes. The day my car couldn't be repaired, I had to go to work and got stressed, but Brad said me down and said I didn't have to worry because he had the rent ready and waited for me to use until my car was fixed. I told you I couldn't afford it. He said don't worry, you still have a guarantee. I asked how much the rent would normally cost (this has been the whole time) I think he said it was \$25 or \$35 a day. Which was cheap for me if you went to the rental company, I think they would charge more. I've been a customer ever since because no matter how small the problem is, like the valve stem cap is missing, you tell him about it and he does it right. I'm glad Gordon Chevrolet has people like Brad with family values, and that makes the company real people who can listen and put themselves in your shoes. Thanks to Brad and Gordon Chevrolet I have owned this vehicle before and although it was in total in an accident, I had to get another one. My personal preference is manual gearbox, which is why I first looked at this vehicle. It's hard to find a vehicle with this much space, power on seats 5, comes with an alternative to manual transmission, and that's at this price point. The Cadillac ATS-V would be second best, but it doesn't have the sound and feel of the V8, it's smaller and more expensive. I only knocked the star over from the outside because it has more chrome than I care about. 2016 Jeep Unlimited - Mopar Bumper to Bumper Life 5 5 5 4.8 (29 reviews) My seller wasn't afraid to do his homework and came up with a reasonable price to minimize the effort. Since there wasn't much haggling over the price of the vehicle and it was a direct order, the car dealership also took a Mopar bumper break for a life-long warranty on the bumper. I felt it was fair, which is important. Everyone has to make money, but I didn't feel there was any engraving involved. In addition, dealers honored the military service with a nice discount associated with the Jeep Wrangler unlimitedly. Cole Chrysler was a positive experience. Efficient, knowledgeable and hardworking. This is the first time I've looked at them from my next car purchase. No one sees this coming wanted the SS for a few years now, they made improvements year after year, and this last year I had to make a move or lose. I'm so glad I did it. I used to be a rabies car guy. Then marriage, children, grandchildren, etc. You know the pattern. Too much earthworks, minicars, etc. It was hard to get. They disappeared cars.com, and every other site. One local retailer (ST. Louis area) gave me the biggest run I've ever seen. In short, I drove over 3 hours to get the last one available in Illinois. I like this car. It's secretive and fantastic. Best road handling I've ever had I'm so happy with this SS, I can't tell you. 5 5 5 5 2.6 (36 reviews) We had a new seller His name was Tae. We buy a car at this store because we have asked to go to another one with what we really wanted because Tae did such a great job and was more than patient with us. I'd like to point out that General David was just as great. I just wanted to show you a good job when I'm going to have one. Keep it up Guys I was lucky enough to buy one of these 20% discount and got one of the last manual gearbox versions. At the moment, there is no similar vehicle for this. I look forward to driving this car every day. It's so capable, competent, powerful and understated. While panning car magazines is too boring visually, there are just enough visual keys to indicate that this isn't your running mill malibu. What's not to like: 415 hp V8, manual transmission, rear position, family sedan, all for reasonable money. If you haven't bought one, you may have missed your chance, but this is a great ride! 5 5 5 5 4.7 (313 reviews) I've been car shopping for 7 months now, and a friend directed me to Hendrick City of Chevrolet. The Ebony Board greeted me with the most amazing smile. ... I knew straight away that he was going to take care of me for being home.... a made me feel very welcome, d didn't pressure me to buy... He said he wasn't a salesman, but that he was a customer service expert ... I'd estimate the City of Chevrolet 10 starts because of Ebony. Give him a raise. But I really enjoyed the hospitality from everyone... I will soon be buying my vehicle.... I was ingested to buy one of these 20% during the discount and got one of the last manual gearbox versions. At the moment, there is no similar vehicle for this. I look forward to driving this car every day. It's so capable, competent, powerful and understated. While panning car magazines is too boring visually, there are just enough visual keys to indicate that this isn't your running mill malibu.
