It has a solid laminated finish, making it easy to assemble and springy enough to survive repeated trips to New York. In addition, the subway map covers the entire subway system (not just Manhattan). The comprehensive index includes more than 100 attractions, as well as parks and monuments of Central Park. There is also a list of useful phone numbers for transport, emergencies and airports on one map panel. 03 of 04 Although not laminated, this map has one advantage over all others - it is available for free from NYC & Company, the official travel marketing organization in New York.
